PART IV., "WATER CLAUSES CONSOLIDATION ACT, 1897."

(1.) This is to certify that the "Nanaimo Electric Light, Power and Heating Company, Limited Liability," granted under the provisions of the "Nanaimo Electric Light, Power and Heating Company's Act, 1898," the like powers, privileges and priorities as a Power Company duly incorporated in compliance with the provisions of Part IV. of the "Water Clauses Consolidation Act, 1897," has submitted its undertaking to the Lieutenant-Governor in Council for approval, and that the said undertaking, as shewn by the documents and plan filed, has been approved, and that the same is as follows:—

To exercise the corporate powers of a power company upon the lands on the north side of the Millstone River between Block X., Newcastle Town, Vancouver Island, and a point on the boundary line of the City of Nanaimo where it crosses the Millstone River at Block XV., Newcastle Town, and also, so far as the supply of power is concerned, within the City of Nanaimo and a radius of fifteen miles therefrom, as authorised by the "Nanaimo Electric Light, Power and Heating Company's Act, 1898."

That for the purpose of generating power, the Company has applied for two thousand inches of water to be taken from the said river, such water to be diverted from the river at a point two hundred yards below the bridge on the Nanaimo-Wellington Road, and to be

conveyed from such point of diversion by a ditch or flume and pipe-line along the north side of the river a distance of six thousand five hundred feet, more or less, to the power-house, at a difference in altitude between the point of diversion and the point where the water will be returned to the stream of one hundred and sixty-seven feet.

To acquire land as a site for a power station of about one hundred feet by fifty feet upon the eastern boundary of Lot XXIV., Newcastle Town, and land as a right of way of about ten to fifteen feet in width along the line of the intended flume. To erect a power house of the requisite dimensions, and to construct a flume not exceeding five feet in width and three feet six inches in depth and approximating four thousand feet in length, to connect with a pipe which will deliver the water under pressure to a wheel of modern type with adequate power for the operation of dynamos of sufficient capacity to generate electricity to meet the requirements of the business of the Company in the city of Nanaimo and vicinity:

(2.) And this is further to certify that the estimated cost of the undertaking and works, including water and lands to be purchased, the construction and operation whereof is to be presently undertaken by the Company, is from fifteen thousand to twenty thousand dollars.

(3.) And this is further to certify that the time within which the said undertaking and works are to be commenced is fixed at two months from the date hereof, and the time within which the proposed undertaking shall be in operation is fixed at twelve months from the date hereof.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA.

PUBLIC NOTICE is hereby given that the Imperial Academy of Sciences at St. Petersburg offers a reward for information which may lead to the discovery of Baron Toll's Polar Expedition.

Baron Edward Toll, Chief of the Polar Expedition sent out by the Academy of Sciences, left the Bennett Island, lying north of New Siberia, on October 26th (November 8th), 1902, taking a southern direction. He was accompanied by the astronomer Seeberg and two Jakoots: Vassily Gorokhov, with the surname Chichak, and Nicolas Protodiakonow, with the surname Omook. The party seems to have been carried away by the ice.

As the researches hitherto made have been in vain, a reward of five thousand (5000) roubles is offered by the Academy of Sciences for finding the whole expedition, or any part of it, and a reward of two thousand five hundred (2,500) roubles for giving the first exact indications of tracing the party.

Dated at the office of the Secretary of State of Canada, this eleventh day of May, 1904.
